CONTINUING PROFESSIONAL DEVELOPMENT EVENT

WOBBLY WRISTS (1/2 day workshop)

with Ms Lyn Miles

Friday May 21

Princess Alexandra Hospital, Woolloongabba

WORKSHOP DETAILS

Wrists that have been injured or are aging, can become painful and/or unstable. This has a significant, adverse effect on a person's grip strength and endurance. This half-day workshop will provide a brief overview of wrist anatomy, and an update of the exciting new research that underpins current therapy approaches with painful, unstable wrists.

The emphasis will be on a practical approach, not detailed wrist assessment. Participants will develop knowledge and skills in dart thrower motion (DTM) concepts, proprioceptive and strengthening wrist exercises (including making your own slosh pipe), and making a controlled motion wrist splint.

This workshop is open to occupational therapists and physiotherapists.
