#### Workshop Details

This Fundamentals of Oedema Management workshop will provide both theoretical and practical aspects of oedema management in the clinical setting. Oedema reduction and control techniques for venous disease, lymphoedema, post-traumatic oedema and dependency oedema will be covered. Topics will include:

- What is Oedema?
- Assessment — theory & practice
- Treatment of oedema — acute & chronic
- Clinical problem solving in treatment planning
- Upper and lower limb bandaging
- Cost & time efficient garment prescription
- Massage—why & how
- Movement—the crucial link

The workshop will also provide opportunities for problem solving and discussion in managing complex cases. Participants are invited to bring their own experiences and case studies for discussion throughout the program.

#### About the Presenter

Angela Thynne is an occupational therapist with extensive experience in oedema management. She currently runs her own private practice specialising in scar and oedema management. Her special interests are post-traumatic and vascular oedema, traumatic scar management and return to work post-traumatic injury.

By attending this Continuing Professional Development event you may be able to claim points towards the Accredited Occupational Therapist Program CPD points. Please check the CPD section in your AccOT manual.
